**Specific hazards in case of fire:** The product itself does not burn. May decompose upon heating to produce corrosive and/or toxic fumes. Contact with metal may release flammable hydrogen gas.

**Special protective equipment and precaution for fire fighters:** For fires in enclosed areas, wear self-contained breathing apparatus. Do not inhale combustion gases.

### ***6. Accidental release measures***

---

**Personal precautions:**

Prevent contact with skin or eyes by wearing rubber gloves and approved safety glasses with side shields. Spilled material may be slippery under foot. Wear rubber boots with an anti-slip contact surface. Wear protective work clothing. Launder any contaminated clothing before reuse.

**Environmental precautions:**

Do not release to the environment or water source.

**Methods and materials for containment and cleaning up:**

Halt spill at source and contain or dike spill with sand or inert absorbent material. Transfer any liquid to containers for recovery or disposal. Shovel used absorbent into drums for disposal in accordance with all applicable local and national regulations.

### ***7. Handling and storage***

---

**Precautions for safe handling:**

Use caution when combining with water; DO NOT add water to caustic; ALWAYS add caustic to water while stirring to minimize heat generation. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Do not breathe mist or vapor. Use only with adequate ventilation. Wear appropriate personal protective equipment. Transfer and storage systems should be compatible and corrosion resistant. Observe good industrial hygiene practices.
